The Group's turnover for 3rd quarter 2008 increased by 49.5% from \$\$21.00 million to \$\$31.39 million. This was mainly driven by continual strong demand momentum in marine, offshore oil and gas activities during the quarter.

Supported by buoyant ship repair, ship building, rig building activities in various Batam and Singapore shipyards, the CP division continued to achieve higher growth for the quarter with an increase in turnover of S\$6.73 million from S\$8.28 million in 3rd quarter 2007 to S\$15.01 million.

Turnover from our IE division registered an increased of S\$4.01 million from S\$5.68 million in 3rd quarter 2007 to S\$9.69 million in 3rd quarter 2008. The growth was attributed to higher revenue generated from the electrical, installation and automation services for our related parties. In this quarter, we also provided a new service line in the form of rope access services to a customer in the oil and gas industry.

The Group achieved a net profit attributable to shareholders of S\$1.5 million for 3rd quarter 2008 an improvement of 51% compared to 3rd quarter 2007 with net profit of S\$995,000.

The Group's turnover for the nine months ended 30 September 2008 registered a 40.9% growth to \$\$100.18 million from \$\$71.08 million in the previous corresponding period. The increase in the Group's turnover was largely attributable to the strong performance of CP division, the latter being supported by the strong order books in ship building, ship repairs and rig buildings in the various Singapore and Batam shipyards.

For the nine months in 2008, the IE division had achieved steady growth and this was partly fueled by the activities related to the oil and gas sector and stream of new contracts secured from repeated customers and new customers during the period.

The SD division played an important internal group procurement role to facilitate and support the growth for the CP and IE divisions.

The Group's net profits attributable to shareholders increased by 83% to \$\$6.87 million for the nine months ended 30 September 2008 as compared to \$\$3.76 million for the previous corresponding period. ## **CASHFLOW STATEMENT**

The Group has improved its operating cashflow during the 3rd quarter by taking measures to collect debts promptly.

Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The results for the nine months 2008 was in line with the prospect statement as disclosed in the FY2007 full-year result

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group has commenced operation in October 2008 at the new 32.8 hectare yard in Batam with the construction of the accomodation modules of a pipe laying barge (with a contract value of S\$21 million) together with other ongoing projects. The outlook for the marine oil and gas sector for the near term remains positive, underpinned by the existing order books secured by the shipyard industry in Singapore and Batam.

With the challenging business environment and the uncertain financial market, the Group will continue to adopt a cautious approach to capital expenditures. At the same time, the Group will continue to focus on its debt recovery and cash collection efforts.
