2H2024 vs 2H2023

- (i) **Group Revenue Growth:** The Group's revenue for 2H2024 increased by 9.8% or \$\$4.65 million, rising from \$\$47.31 million in 2H2023 to \$\$51.96 million in 2H2024 mainly driven by stronger contribution from IE segment.
- (ii) IE Segment Performance: Revenue from the IE division grew by 13.8% or \$\$5.02 million from \$\$36.30 million in 2H2023 to \$\$41.32 million in 2H2024. This increase was fuelled by higher business volumes in oil and gas activities, particularly repairs and maintenance services for FPSO and FSO units. The Group continues to expand its service offerings, geographical footprint, and fleets under contractual maintenance agreements.
- (iii) **CP Segment Performance:** Revenue from the CP division, which is primarily recurring, declined by 3.5% or S\$0.38 million from S\$11.01 million in 2H2023 to S\$10.63 million in 2H2024. This decrease was attributed to the disposal of a loss-making bottled drinking water distribution business which was consolidated under the CP segment in FY2023.

(a) Revenue (cont'd)

FY2024 vs FY2023

- (i) **Group Revenue Growth:** For the year ending 31 December 2024, the Group's revenue increased by 41.3% or S\$32.72 million from S\$79.16 million in FY2023 to S\$111.88 million in FY2024. This significant growth was largely driven by the robust performance of the IE segment.
- (ii) IE Segment Performance: The Group's IE division achieved a remarkable revenue increase of 60.3% or \$\$34.40 million, rising from \$\$57.03 million in FY2023 to \$\$91.43 million in FY2024. This growth was attributable to Group's expansion in offshore sectors, resulting in increased demand for FPSO and FSO contracting and maintenance services, which saw business volumes rise by 70.7% or \$\$35.71 million, for FY2024. The Group has solidified its reputation as a leading provider of in-situ asset integrity solutions for floating assets, as well as onshore, offshore, and marine support services. Key offerings include:
 - Offshore in-situ Asset Integrity Solutions: a comprehensive "One-stop" service covering life extension, class recovery, shutdown support, voyage carryover works, startup installation assistance, warranty repairs, upgrades and modifications, major repairs, and periodic maintenance.
 - **Onshore Support Services:** such as project management for new builds and conversions, miscellaneous steel fabrication, carryover works, topside completion and commissioning support, and vessel inspections.

Additionally, the Group's deck equipment business saw a 38.6% revenue increase of \$\$0.93 million, from \$\$2.41 million in FY2023 to \$\$3.34 million in FY2024. The Group is actively pursuing new project tenders in key marine and offshore hubs regionally.

(iii) CP Segment Performance: Revenue from our CP division decreased by 7.4% or S\$1.64 million, from S\$22.08 million in FY2023 to S\$20.44 million in FY2024. This decline was primarily due to the consolidation of S\$1.52 million distribution business into the CP segment up to FY2023 which included the disposal of the loss-making bottled drinking water business.

(b) Cost of sales/Gross Profit Margin

2H2024 vs 2H2023

- (i) The Group's cost of sales from operations increased by 12.0% or \$\$3.71 million at \$\$34.49 million in 2H2024. This was due to one of the FPSO repair and maintenance works experiencing temporary two months of downtime as a result of a floating accommodation barge being drydocked for repair and maintenance. Nevertheless, gross profit was higher at \$\$17.48 million for 2H2024 as compared to \$\$16.52 million for 2H2023 and GP remained healthy at 33.6%. Continuing efforts to drive cost efficiency comprise the following:-
 - **Enhanced Cost Management and Productivity**: Strategic initiatives, including reduced capital expenditure, a shift toward an asset-light business model, and efficient resource allocation, contributed to better cost control.
 - Portfolio Optimization: The cessation of operations at the waterfront fabrication yard in Singapore, along with the disposal of loss-making business operations, eliminated underperforming segments and strengthened the Group's financial health and operational efficiency.

Condensed interim consolidated statement of profit or loss and other comprehensive income (cont'd)

(b) Cost of sales/Gross Profit Margin (cont'd)

2H2024 vs 2H2023 (cont'd)

(ii) Depreciation expenses from operations increased marginally by \$\$0.05 million at \$\$1.41 million in 2H2024 from \$\$1.36 million in 2H2023, which is aligned with the Group's strategy to continue to increase the operating efficiency and/or utilisation rate of our fixed assets.

FY2024 vs FY2023

During the financial year ending on 31 December 2024, the Group experienced a 34.8% increase in the cost of sales from the operations to S\$73.15 million. The increase in rate of sales was 41.3% and thereby enabling the gross profit to exhibit a substantial increase of S\$13.82 million to S\$38.73 million in FY2024.

The improvement in momentum was substantially attributable to the Group's asset-light strategy, exiting loss-making operations, effective cost management and operating efficiency. In particular, the asset-light strategy has contributed to a substantial reduction in depreciation expenses over the last 2 financial years.

2H2024 vs 2H2023

The Group reported Other Gains of \$\$1.01 million in 2H2024 as compared to \$\$4.21 million in 2H2023. This was primarily due to a one-off gain of \$\$5.40 million in 2H2023 resulting from the disposal of assets held-for-sale. No major credit event occurred during 2H2024 as compared to the write-off of \$\$1.24 million on credit loss for contract assets related to the discontinuation of berthing and repair services operated out of the Batam waterfront yard in 2H2023.

(c) Other gains - net (cont'd)

FY2024 vs FY2023

In FY2024, the Group achieved Other Gains of S\$8.27 million as compared to S\$4.37 million during FY2023. The higher Other Gains was contributed by :

- (i) The absence of a S\$1.24 million credit loss as highlighted above;
- (ii) Strengthening of USD/SGD resulting in foreign currency exchange gain of S\$0.52 million in FY2024; and
- (iii) Rental income of S\$1.33 million from its investment properties at Batam, Indonesia.

(d) Administrative expenses

2H2024 & FY2024

The Group's administrative expenses decreased slightly by \$\$0.43 million from \$\$10.13 million for 2H2023 as compared to \$\$9.71 million in 2H2024. However, the Group's administrative expenses were higher for FY2024 at \$\$20.66 million as compared to \$\$16.49 million due to higher salaries, bonuses, accruals for performance incentives and other personnel-related expenses in tandem with the improved performance, increased hirings and business expansion.

(e) Finance cost

2H2024 & FY2024

Arising from deleveraging initiatives, the interest expense on bank borrowings decreased by 56.5% or \$\$0.55 million in 2H2024 as compared to 2H2023. Similarly, the interest expense decreased by 52.2% or \$\$1.03 million from \$\$1.98 million in FY2023 to \$\$0.95 million in FY2024.

(f) Profit attributable to Owners of the Company

2H2024 and FY2024

The Group registered net profits attributable to shareholders of S\$2.97 million for 2H2024 as compared to S\$4.28 million for 2H2023 due to absence of the one-off gain on disposal of asset held-for-sale booked at the end of 2023. Nevertheless, 2H2024 reflected stronger operating performance as compared to 2H2023 with higher sales and gross profit.

For FY2024, the Group registered net profit attributable to shareholders of S\$11.54 million as compared to S\$3.42 million for FY2023 due to stronger business performance by both IE and CP segments.

In line with stronger operating results, deleveraging initiatives and asset-light strategy, the Group generated positive EBITDA of S\$29.25 million for FY2024 as compared to S\$15.84 million for FY2023.

Condensed interim consolidated cashflow statement

There was a net cash inflow generated from operating activities of S\$13.47 million in FY2024.

Net cash inflow generated from investing activities was \$\$6.03 million in FY2024 mainly due to the proceeds on completion of sale of 90,000 square metres land.

Net cash used in financing activities was \$\$8.27 million in FY2024. This was largely comprised of \$\$2.43 million net repayment of bank loans; \$\$0.33 million net repayment of partial Bonds; \$\$1.38 million on payment of lease liabilities; and \$\$3.96 million dividend paid to non-controlling interests.

As a result of the above, the Group registered a net increase in cash and cash equivalent of approximately S\$11.22 million for FY2024.

Condensed interim statements of financial position

Non-current assets

The Group's non-current assets decreased by S\$1.72 million to S\$12.46 million as at 31 December 2024 due mainly to the following: -

- (i) depreciation expenses of \$\$2.90 million.
- (ii) additional capital expenditure for \$\$1.78 million on tools & equipment, computers, motor vehicles and right-of-use assets acquired under leasing arrangement.

Condensed interim statements of financial position (cont'd)

Current assets

The Group's current assets increased by S\$12.84 million to S\$61.65 million as at 31 December 2024, which was mainly due to the following:-

- (i) increased in cash and cash equivalent of S\$10.73 million as at 31 December 2024;
- (ii) inventories decreased by \$\$0.92 million; and
- (iii) trade receivables and contract assets increased by \$\$3.12 million and \$\$2.64 million respectively in tandem with the increase in business activities for the year ended 31 December 2024.

The trade receivables (net of credit loss allowances) for 151 to 365 days and more than 365 days decreased by S\$0.67 million from S\$1.34 million as at 31 Dec 2023 to S\$0.67 million as at 31 December 2024. Notably, trade receivables below 90 days constituted to 91.1% of total trade debts as at 31 December 2024 (31 December 2023: 82.1%).

The Group carries out credit risk assessment on its trade receivables on a quarterly basis. As and when trade receivables are deemed uncollectable, the Company will provide the necessary credit loss allowance. The Group has credit loss allowances amounting to \$\$0.26 million as of 31 December 2024 (31 December 2023: \$\$0.63 million). The credit loss allowances were primarily attributable to the deteriorating financial performance of our trade debtors.

Current liabilities

The Group's current liabilities decreased to \$\$40.21 million as at 31 December 2024, as compared to \$\$47.49 as at 31 December 2023. This was mainly due to reduction in borrowings by \$\$8.84 million, which stood at \$\$3.76 million as at 31 December 2024 (\$\$12.60 million as at 31 December 2023). Similarly, trade and other payables decreased by \$\$0.81 million for the financial year 2024.

Net current assets

Non-current liabilities

The Group's non-current liabilities increased from S\$3.66 million as at 31 December 2023 to S\$5.44 million as at 31 December 2024 mainly due to successful refinancing of a 3-year 2027 Bond of which will be maturing on 5 November 2027.
